

# Online Classes Starter Kit (Optical Collaboration Model)

This service is provided by combining NTT West's "FLET'S Hikari" with an Internet provider service. You can use this service for a variety of purposes.

**The staff who will contact you to confirm your application and schedule the network installation will speak only Japanese. Please note that we cannot provide support in English or other languages.**

**This service is available only in the "FLET'S Hikari" service area by NTT West.**

You can check the "FLET'S Hikari" service area by NTT West at the following URL (Japanese version only).

<https://flets-w.com/area/>

***We will provide you with IPv6 communication services.***

-Our IPv6 communication will be based on the "v6plus" provided by Japan Network Enabler Corporation. Inc. "v6plus" is a trademark of Japan Network Enabler Corporation. Inc.

**-To use this service, you need a router that supports "v6plus".**

For more information about "v6plus" compatible routers, please visit the following URL (Japanese version only).

<https://www.jpne.co.jp/service/v6plus/>

- To start using "IPv6 Connection Function", "FLET'S v6 Option" provided by NTT West is required.
- Some services with limited ports, such as some online game software, security cameras, and VPN connections, may not be available. Please contact the online game service provider in advance to inquire whether the online game is compatible with IPv6 services.

***Network speed: Maximum speed approx. 1Gbps***

- Maximum speeds are values based on technical specifications and do not necessarily represent actual usage speeds.
- Actual speeds may not improve even if network speed is changed to Maximum speed approx. 1Gbps, depending on devices, LAN cables, and network environment/status, etc.

***There are no contract term limits or cancellation penalties.***

- Minimum usage period is not set. No penalty will be charged if you cancel the service in the middle of the term.

## Details of each plan
